

Eyelash tint

Eyelash tinting will enhance the general appearance of your eyes and is particularly beneficial for people who participate in sporting activities, especially swimming. Unlike mascara the effect is very natural - so no more panda eyes!

This is a straight forward, quick and painless procedure using combined dye to tint your lashes. Please note that we are unable to make your eye lashes lighter than the natural colour.

Important: A patch test is required at least 24 hours prior to tinting to ensure no sensitivity to the product exists.

Waxing

All our waxing treatments are performed using Oritree wax, which has been the market leader for 15 years. Oritree wax is an organic resin and is chemical free. It adheres to the hair not the skin and is therefore less painful than some waxes. Suitable for all parts of the body.

Temporary removal of unwanted body hair.

Waxing is the quick solution to hair removal, lasting up to 4 weeks.

Swedish massage

Massage is used to maintain physical health as well as inducing relaxation. It helps to alleviate the build up of stress and tension in the muscles. Swedish massage uses massage techniques specifically aimed to relax your muscles as the main purpose is to increase oxygen flow to the muscles and aid the body to remove the build up of toxins.

Hydrotherm

Hydrotherm Massage involves a unique three dimensional massage technique where the client is supported on two pillows of warm water in perfect spinal alignment and remains face up throughout the treatment. The therapist slides their hands under, over and around the client's body in an uninterrupted motion using the client's own body weight as a source of pressure and water displacement instead of lifting the client. This facilitates a deep 'holistic' massage technique where the gentle heat of the water increases the circulation and removal of toxins, and improves the efficiency of Essential oils if used with Aromatherapy. Hydrotherm Massage achieves new heights in relaxation and can be particularly beneficial to clients unable to lie face down or turn over easily, for example, pregnant, elderly, claustrophobic or asthmatic clients
